By pressing on Start/Pause button, you may start the programme you have selected, suspend a running programme.
7 **Removing Laundry**

• After a program is completed, the washing machine will turn off automatically.

• " END" will appear on the display.

• Open the washing machine door and take the laundry out.

8 **Maintenance**

1- It is recommended that you clean your pump filter once in 2 months.

2- It is recommended that you clean your detergent drawer once in 2 months.

3- It is recommended that you clean your the filters on water inlet valves once in 2 months.

4- Clean the filter every 2 months at the end of the valves.

⚠ If the spinning operation is not performed or runs late, it means, the unbalance load control system has been activated.
Unbalance load control system will try to spread your laundries homogeneously.
Spinning operation will start after spreading your laundries.
